

What is e~Funds for Schools

e~Funds For Schools is a secure payment method that allows funds to be automatically withdrawn electronically from your checking account, or charged to your credit card. You also have the flexibility to pay, at anytime, through the school's website or by touch-tone phone as alternate methods.

The convenience and flexibility of **e~Funds For Schools** will help to eliminate last minute check writing hassles, improve efficiencies, and help cut costs for both you and your school. Plus, you will no longer need to worry that your children could lose the money that you give them or that they might spend it on unintended items.

Once you have completed the steps outlined in [Sign up For e~Funds](#) you can begin making electronic payments. You may select any of the payment options to pay each school function. For some school functions, such as lunch, you may select the reoccurring payment option, saving you even more time and money.

Many school activities require a signed permission slip and a payment. You can instruct the school to apply an electronic payment to your account by simply signing where indicated on the permission slip. You may also use the school's website or by touch tone phone to make any electronic payment.

All payments require your knowledge and authorization. If you provide the school with your home and/or work email address an email notification will be sent to you at the time of each payment.
